

PASSION FOR DOCTOR'S BAGS

For over forty years, DÜRASOL has focused on quality rather than quantity: in a world characterised by fast-moving and interchangeable products, we as a family business place particular emphasis on the careful selection of first-class materials, well thought-out and functional designs, precise workmanship and outstanding customer service for our doctor's bags, doctor's cases and backpacks.

Our product range is specially tailored to the needs of doctors, midwives, nursing services and emergency medicine. Each bag, case and backpack has a compact shape and offers sufficient space for the safe storage of important utensils.

We are proud that our products are recognised and appreciated by our customers worldwide.

IDEAL

THE TOUGH ONE.

The case is made of a special high resistant and very solid though also light ABS polymer. Due to the two available sizes and the variable compartments it offers great space, comfort and flexibility for all necessary items.

- + Extremely tough doctor's case due to high resistant and very solid ABS polymer with calf or artificial leather covering
- + Great space clearly arranged
- + When opening the top both lids flap to the sides, so the inner space is easily accessible
- + Inside configuration: 12 flexible ampoule-disposers with space up to 144 ampoules, top and base tray with variable compartment system
- + Double lock system made of ABS polymer
- + Ergonomic double grab handle
- + Available in two sizes

Large size

Length 44 cm x width 24 cm x height 29 cm

Base compartment 18 cm

Weight without content: 3.700 g

Small size

Length 44 cm x width 24 cm x height 22 cm

Base compartment 11 cm

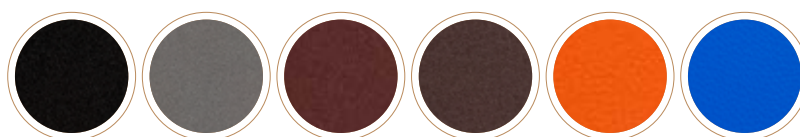

Weight without content: 3.300 g
